St Anne's Monthly News

Friday 30th October 2026

Attendance

October 2026 Attendance	
1st	Y6 Fir 99.3%
2nd	Y2 Sycamore 99.22%
3rd	Y1 Maple 98.98%
4th	Y4 Alder 98.73%
5th	Y6 Hazel 98.42%
6th	Reception 97.9%
7th	Y5 Elm 97.51%
8th	Y3 Willow 96.8%

****

Best Class Attendance for Autumn 1 half term is *Y6 Fir Class*

Wow! What amazing attendance for the first half term!

Every Class achieved 97% or above!

173 children achieved our school attendance target of **97%,** out of those children **144** achieved an incredible **100% attendance!**

We are so proud of you all! Keep up the fantastic work!

POW Winners in October

Reception Ash	Sumayyah, Jasmin, George, Sanchez
Y1 Maple	Melike, Yazin, Thumelo, Myles
Y2 Sycamore	Meral, Yasin, Zora, Reem
Y3 Willow	Avanthika, Jaida, Darien, Bilal
Y4 Alder	Sali, Mark, Elliott, Evidence
Y5 Elm	Annie, Rola, Mohammed, Rhianna
Y6 Fir	Mohammed, Mavis, Alyssa, Esther
Y6 Hazel	Adam, Lola, Lorin, Aser

Congratulations to our Postcard Winners Autumn half term!

Nursery Alaya			
Reception	Saba	Y4	Adrian
Y1	Roman	Y5	Sahara
Y2	Eliza	Y6 Fir	Mavis
Y3	Tina	Y6 Hazel	Wilbert

Thank You to Our Parents and Carers

A huge thank you to all the parents and carers who attended our recent Pupil Progress Meetings. Your time, support and commitment to your child's education are truly valued.

Working together as a team is vital in helping your child reach their full potential.

First Holy Communions

If you have a child in Years 4, 5 or 6 who would like to make their First Holy Communion or be baptised and make their First Holy Communion during this school year please contact the school office to let us know.

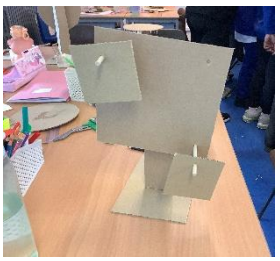

Y6 DT Day

Instructions

Year 6 had a brilliant **DT-day** with DT expert Steph O'Donnell! After designing their own fairground rides, the children spent the day turning their ideas into reality by building sturdy cardboard structures and creating electrical circuits using batteries, motors and switches. It was fantastic to see their designs come to life and actually move! A great day of creativity, problem-solving and hands-on learning.

Work in progress

From concept to completion, Amazing!

Maths Day 2026

We celebrated World Maths Day 2026 in school on Friday 16th March. This year's theme is United by Numbers – celebrating the belief that everyone can learn and excel at mathematics when given the right support. We brought maths to life through stories, games and exciting activities, with some juice and biscuits to enjoy along the way! Each year group was given a different book to explore, using it as inspiration to investigate a range of mathematical concepts in creative and engaging ways. From problem-solving and practical challenges to fun, hands-on activities, children have been developing their mathematical skills while discovering just how exciting maths can be. It has been a fantastic opportunity to celebrate maths and show that learning can be both meaningful and fun!

On Friday 16 October, the children wore Red in support of the charity **"Show Racism the Red Card'**

Founded in January 1996, the charity celebrates three decades; 30 years of anti-racism education across schools, workplaces, and sports clubs.

The Name uses a football (soccer) metaphor. In football, a **red card** is issued by a referee to permanently expel a player for a serious rule violation or misconduct. Applying this to society means giving racism an immediate and permanent "expulsion" or zero-tolerance stance.

A Huge Thank You!

A heartfelt thank you to all our wonderful parents for your very generous food donations for our Harvest Collection. Your kindness and generosity are truly appreciated.

All donations will be taken to **Asylum Link** to be distributed to those less fortunate than ourselves, helping to support individuals and families in need within our community.

Thank you for helping us to celebrate the true meaning of Harvest by sharing what we have with others. Your generosity will make a real difference.

Y3/4/5/6 (KS2) Nativity 2pm in St Anne's Church, parents please join us

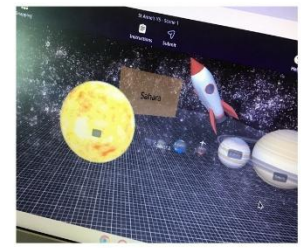

11/12/26
Santa Dash/ Christmas Jumper Day/Christmas Lunch

Computing with Mr Keegan from MGL

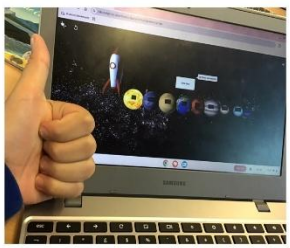

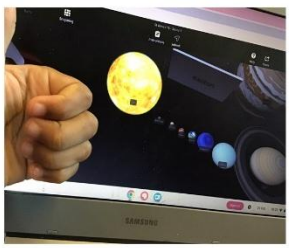

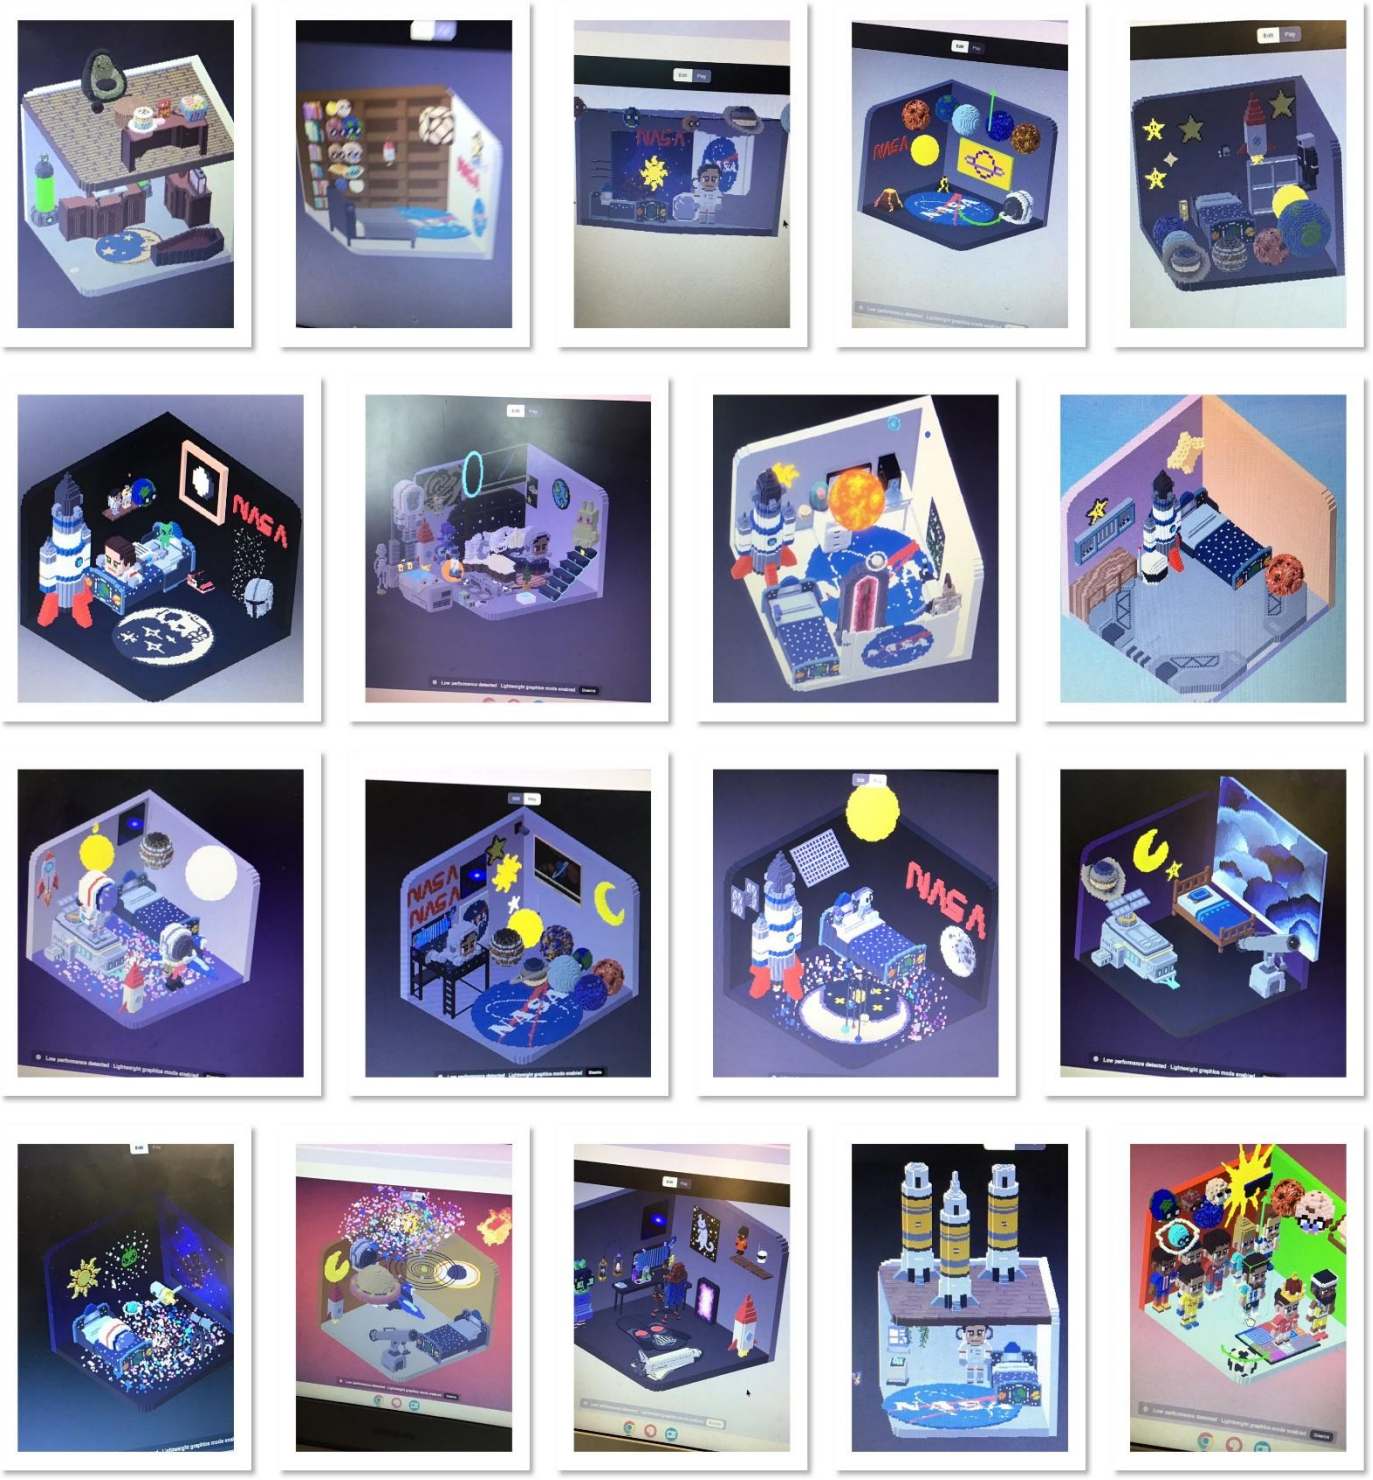

Some of Year 5's fantastic work from this month!

Linked to their Science theme of **Earth and Space**, the children created their own 3D, explorable solar systems.

They continued their space-inspired learning by creating Science-themed rooms.

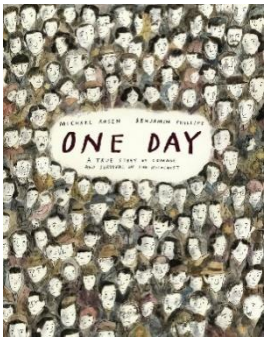

Some brilliant sessions of creativity, exploration and scientific discovery!

Year 6 Fir Class Assembly

In our assembly, Fir Class explained that we've been learning about WW2 and how it affected millions of people around the world. In Liverpool, the Blitz sent families into air-raid shelters regularly, sometimes overnight. Many children were evacuated to the countryside where they would be far away from the bombing.

We also talked about a book we have been reading called 'One Day' which is the true story of Eugene Handshuh, a Jewish man living in Paris during the Nazi occupation. He and his father were arrested and sent to a concentration camp. Against all odds, they managed to escape. The bravery and kindness of the people who helped Eugene and his father, made us realise how important courage, kindness and compassion are. It made us think about the choices we would make.

In maths, we have been reasoning and problem-solving. We have been challenging ourselves to find the most efficient methods. It's all about making connections between numbers.

In science, we have been studying the circulatory system; how oxygen and nutrients are transported around the human body in our blood. We made blood using different ingredients to represent white and red blood cells, plasma, platelets.

To make sure all this knowledge moves into our long-term memories, we have done lots of retrieval so that we don't forget anything we have learned.

We really worked to make our voices loud and clear because we need to make our voices heard when we go out into the world.

A Visit from the Royal Navy for Year 6!

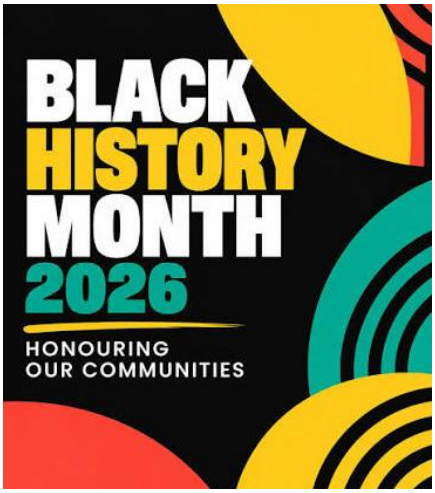

We were delighted to welcome visitors from the Royal Navy, who came to tell us all about life in the Navy and the important work they do. Did you know that the Navy has links to space? We explored this fascinating connection by creating our own rockets and launching them into the sky! It was a fantastic opportunity to learn something new and let our imaginations soar.

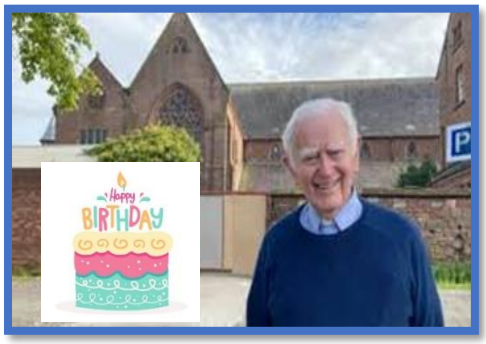

Black History Month 2026 in the UK takes place throughout October with the official theme **"Honouring Our Communities,"** marking 39 years since the celebration began in the UK in 1987. Black History Month 2026 invites us to recognise the communities that shape, support and strengthen Britain. It reflects the fact that Black history is not only made through landmark events or by famous names. It is also created through everyday acts of leadership, care, service, creativity, courage and commitment.

This year our children learnt about the impact and influence of local Black musicians, exploring their music, stories and contribution to our city and beyond. Through this work, we celebrated diversity and helped children develop their understanding of equality, respect and inclusion. As a wonderfully diverse school community, we are proud to celebrate the different cultures and backgrounds that make St Anne's such a special place.

Catholic Life – The Rosary During the month of October, our Catholic Life focus was on the Rosary. We will be learning more about this special prayer, reflecting on the life of Mary and growing in our faith together. We look forward to taking time to pray and reflect as a school community throughout this special month.

Happy 88th Birthday, Father Peter

A very happy 88th birthday to Father Peter, the wonderful shepherd of our St Anne's flock! We are so grateful for his care, guidance and dedication to our parish and school community. We hope he enjoys a very special birthday filled with happiness, love and many blessings. **Happy birthday**, Father Peter!

Celebrating the Season of Creation

Throughout our school community, we have been reflecting on how we can care for and protect our beautiful common home. Our Nursery children created a beautiful Creation Window, celebrating the wonder of the world around us.
